

**Training for Care's short course costs are changing from 1st June 2022.**

In order to simplify the way our group booking fees are worked out, from 1st June, we will charge a fee for minimum numbers and a set per person fee for any additional participants. This means that many of our courses will now be better value for minimum numbers and you will find that some of our course fees have also been reduced for larger group sizes. NB Any courses booked before 1st June will be charged either the cost at the time of booking or the new cost, whichever is lowest.

We hope that this new way of working out fees will provide greater transparency to those booking with us. Please see below details of our courses, and the new fees, which will be published on our website from 1st June.
